

IRIS 10mm

SUMMUM SYSTEM

Canyons rope semi-static type

EN 1891:1998

The third generation of Korda's ropes manufactured with SUMMUM system. It joins the advantages of the previous DANA and FINA, being very handy and easy to manipulate, keeping its properties along the time.

With a powerful sheath to better bear the frictions and with the additional safety provided by Titan System and the Estability finishing.

Available in speleo and canyoning version, being this the only rope in the world with two longitudinal colours.

Diameter	9,9m
Weight per metre	67g/m
Core percentage	55%
Sheath percentage	45%
Sheath slippage	0
Elongation	2,6%
Static resistance	2600daN
